

GT2 – Quality Management in Higher Education

Goals

As part of CS/11 mission, the main goal of GT2 is: to inform, to raise enthusiasm and to promote adherence to the good practices in the area of quality management in higher education, by disseminating information to the academic and scientific communities.

Mission

To analyze the influential vectors of quality in the Portuguese Higher Education Institutions; to promote and motivate systems and methodologies, for planning, managing, evaluating and improving the performance of Higher Education Institutions.

Vision

To be a reference team in the area of quality in the context of the Portuguese Higher Education

Values

Respect and Trust: major contributors for a genuine relationship between the team members, these values allow for establishing and keeping a long-lasting relationship, which stimulates teamwork and the exchange of experiences;

Responsibility and Sharing: motivating partnerships and promoting critical thinking, the exchange of ideas and experiences, these values uphold a collaborative and mutual aid approach between the members of GT2;

Quality and Innovation: with these values in mind, GT2 is constantly seeking for new answers, different strategies and new ways of working that may contribute to the continuous improvement of the Portuguese Higher Education system.

GT2 Internal Dynamics

The individual experience in Quality Management of each member of GT2 allows, through monthly meetings, for sharing information and improving knowledge while promoting both institutional and personal enrichment.
